Wolseley Industrial Group Quality Policy

It is the policy of the Wolseley Industrial group to develop and maintain a Quality Management System. We are committed to developing collaborative relationships with our customers by providing them with products and value-added services that meet their requirements.

Through continual improvement, the latest technologies and Quality Objectives, we will enhance our processes and strengthen our framework allowing us to bring diversity and success to our customer base.

As well as valuing our customers, suppliers and investors, we support our associates and community to create a successful environment for us all.

We will operate our business ethically and with integrity while continually striving to build and maintain customer loyalty.
